

About Boutique Collection Sinks

Vanity Sinks

Simplicity itself. Sink and vanity are seamlessly integrated in lengths that range from 24" to 72" in defined increments, depending on the bowl and length selected. Standard height of the Vanity Sinks is 34" and depth is 14", 18" or 22" depending on sink bowl selected. Choose from a Parsons-style, Waterfall-style or Half-Waterfall-style design. Many bowl styles available for Counter-Sinks may be specified for Vanity Sinks.

Wall-Mounted
Vanity Sinks

These are ideal where bathroom space is at a premium. They feature angled fronts that taper inward on a slant of approximately 10° toward the bottom for design interest and ease of use. A built-in, recessed storage area for towels or toiletries is included in the side opposite the bowl. Space is provided on the deck for faucet-mounting.

Pedestal Sinks

Today there is a demand for beautiful, high-quality bathroom fixtures that will work well in tight spaces. MTI pedestal sinks respond to this need with footprints that are very modest, and yet accommodate a generously-sized sink bowl that is seamlessly integrated. Perfect where less is more.

Palmer / MTI Vanities

Creating a vanity for your bathroom is as easy as 1, 2, 3 with a console leg system by domestic manufacturer Palmer Industries and integrated sink tops by MTI. First, choose your length: 24" and 36" with single bowl, or 68" with two bowls. Next, select your style: Traditional with Tapered Foot console legs, or Modern with Studio console legs. Lastly, select matte or gloss finish for the top and select one of six finishes for the console legs. You're done!
