THE OFFICIAL SPONSOR OF

products

1 The vanity is equipped with two Wymara Double sinks from **MTI Whirlpools**. Available in white or biscuit with a matte finish, the sinks have no overflow, feature a one-piece construction and are formed of an engineered solid-surfacing material made of natural minerals and resins. **Circle No. 226**

2 The shower is paved with black ceramic tiles from **Coverings Etc's** Eco-Gres Mosaics line. Made with 36-percent recycled content, they require no sealer and are offered in 18 matte, through-body, unglazed colors. To ensure seamless coverage, the architects chose mosaics in a 1-in. x 1-in. format. **Circle No. 227**

3 Tiger wood flooring from **Edensaw** was used throughout the home and in the master suite to add warmth to the otherwise black and white palette. The wood species is available in the company's Classic and Matte Collections in wide-plank, engineered wood and solid plank options. **Circle No. 228**

4 Reinforcing the contemporary aesthetic, the vanity sinks are paired with **Grohe's** Atrio wall-mount vessel faucets. Available with spoke or lever handles, the faucets feature a 7¹⁵/₁₆-in.-long spout and solid brass construction. Finish options are Starlight chrome, Infinity satin nickel, Sterling Infinity and Infinity brushed nickel. **Circle No. 229**

5 Although the bathroom is simply furnished, it does include **TOTO USA's** Neorest 600, which combines a water-saving 1.6/1.2-gpf dual-flush system with such conveniences as an adjustable warm air dryer, a variety of cleansing functions, a heated seat, hands-free automatic flushing capability, a self-opening and closing lid and a remote control. **Circle No. 230**
