

Trim Kit Overview

Whirlpool Trim / Standard

When whirlpool packages are ordered, the trim typically matches the tub color. The trim in whirlpool packages includes:

- On / off control
- Air-volume control
- Suction cover
- Jet escutcheons
- Fill-Flush® / Simple Touch® filler cap (if so equipped)

Whirlpool Trim / Optional

Optional trim kits for the various whirlpool packages are available in Chrome or Brushed Nickel. Pricing for these optional trim kits is specific to each tub and is included in each tub's specification / price sheet.

Whirlpool Trim / Special Finishes *Please allow 2-4 weeks lead-time for Special Finishes.*

Optional trim kits are also available in Special Finishes*. Submit a sample of your selected finish and MTI will closely match it. Please call MTI for pricing.

Trim Kit for Standard Whirlpool -

Chrome (TRC) **\$235**, Brushed Nickel (TRBN) **\$595**, Special Finishes (TRSF) **\$1,190**

Trim Kit for Ultra Whirlpool -

Chrome (TRCU) **\$320**, Brushed Nickel (TRBNU) **\$815**, Special Finishes (TRSFU) **\$2,600**

NOTE: Depending on the color and package ordered, not all trim items may be available to match.

IMPORTANT: Most trim options are permanent and cannot be changed after installation.

*Allow 2-4 weeks lead time for Special Finishes.

Low Water Sensor

- The automatic water level control prevents the whirlpool pump from operating when there is insufficient water in the tub.
- A sensor is mounted on the tub approximately 1" above the highest jet. If the tub is not filled up to this level, the pump will not operate.
- Likewise, if the water drops below this level, the pump will automatically shut off.

Low Water Sensor (LWS) **\$360**
